

TELL SALESFORCE: DROP THE CBP CONTRACT

Salesforce powers the Unified Immigration Portal, which enables information sharing between ICE, CBP (Customs Border Protection), and other enforcement agencies. The system uses AI to facilitate the detentions and deportations tearing our communities apart. This contract is worth less than 0.1% of Salesforce's annual revenue and dropping it will not impact Salesforce's bottom line.

Tell Salesforce: Drop the CBP contract.

No tech for state violence.

HERE'S WHAT YOU CAN DO

Salesforce Employees: Talk to your leaders and email Suzanne DiBianca, Executive Vice President & Chief Impact Officer: "No tech for state violence. Drop the CBP Contract." Then share this flyer with your team, tape it to the fridge, slack it, make some noise!

Salesforce Users: Reach out to your Salesforce contact and tell them to drop CBP or risk losing your business. **Find template emails at snatchforce.tech

Paramjit Singh

Paramjit is a green card holder who has lived in the US for 30 years. He has a brain tumor which causes vision loss and heart issues. On July 30, authorities detained Paramjit at Chicago O'Hare Airport as he returned from India. He was held at the airport for five days where his health deteriorated. His family located him because of a \$3,000 emergency room bill. He remains in ICE detention.
