

TELL SALESFORCE: DROP THE CBP CONTRACT

Salesforce powers the Unified Immigration Portal, which enables information sharing between ICE, CBP (Customs Border Protection), and other enforcement agencies. The system uses AI to facilitate the detentions and deportations tearing our communities apart. This contract is worth less than 0.1% of Salesforce's annual revenue and dropping it will not impact Salesforce's bottom line.

Tell Salesforce: Drop the CBP contract.

No tech for state violence.

HERE'S WHAT YOU CAN DO

Salesforce Employees: Talk to your leaders and email Suzanne DiBianca, Executive Vice President & Chief Impact Officer: "No tech for state violence. Drop the CBP Contract." Then share this flyer with your team, tape it to the fridge, slack it, make some noise!

Salesforce Users: Reach out to your Salesforce contact and tell them to drop CBP or risk losing your business. **Find template emails at snatchforce.tech

ABDUCTED USING SALESFORCE TECH

Benjamin Marcelo Guerrero-Cruz

Benjamin is a high school senior from Los Angeles. He is a devoted son, loyal friend, and diligent student. On August 8th, 2025, a few days after his 18th birthday, masked ICE agents arrested him while he was walking his dog in Van Nuys, letting his dog run loose. The agents then transferred him secretly from California to Arizona without notifying his family.
